Boys and Girls Who Work this Summer

Many of the East Chicago boys and girls who are working during the summer, vacation will soon be drawing their first pay checks. And the checks received by young workers these days are far greater than those of a few years ago.

With wages so good even young workers should get the advantage of fat pay checks. That is best done by saving part of each pay check, and putting the money in a safe strong bank.

This bank, which is under federal government supervision, invites new workers to cash their first pay checks here and to save part of their earnings for themselves-saving it in this bank.
